PREPARED BY: Site Resources, Inc.

This APPROVAL is granted subject to the following conditions:

1. This Approval shall become null and void if the construction authorized herein has not been completed within three (3) years from the granting of this Approval, except that these limits may be extended at the discretion of the Department when requested by the owner or authorized agent.
2. This Approval is subject to all laws and regulations now in effect and may be revoked if it is subsequently determined that this authorization violates other laws of the State. Construction shall comply with approved terms.
3. The location and dimensions of all sediment control structures and stormwater management facilities, as well as grading, excavation, and filling shall be in accordance with plans approved by the Department of the Environment/ Water and Science Administration (MDE/WSA). The owner or authorized agent shall obtain written approval from the MDE/WSA for any plan modifications or changes. A copy of the approved plan with any approved modifications and this Approval shall be available at the construction site for reference during the construction period.
4. Off-site borrow or waste sites require local county and Soil Conservation District approvals if they are located on private property or MDE/WSA approval if on State or federal property. Local approval numbers shall be furnished to the MDE/WSA Inspector.
5. The Owner or his authorized agent shall notify the MDE/WSA Compliance Program at (410) 537-3510, at least seven (7) days prior to initiation of the project and five (5) days after work ends.
6. This project has an earth disturbance of 1.0 acre or greater. Prior to any earth disturbance, notice of intent (NOI) application for the National Pollutant Discharge Elimination System (NPDES) General Permit for Stormwater Associated with Construction Activity shall be submitted to and approved by MDE.
7. Stormwater management requirements for Phase 1 of this project are being satisfied by a 1.50 acre reduction in impervious area. This approval is only for Phase 1. Erosion and sediment control plans for the remaining phases of this project and the stormwater management construction details shall be submitted to MDE/WSA for review and approval.
