Re: Old Frederick Road Pump Station
Downstream Sewer
EP-24-15

Concept Stage(30%) Site Development Stage(65%) Final Stage(90%)

The above referenced plan has been reviewed by the Howard Soil Conservation District for compliance with sediment control, pond safety, temporary stormwater management, and sensitive area protection requirements. Results of the review are as follows:

- () Howard SCD approval is not required. However, the following recommendations and requests are being made to the Department of Public Works.
- () The plan stage is approved, subject to addressing comments at the next plan stage.
- (X) Address all comments which, due to their minor nature, may be addressed directly on the original(s) at the time of formal signature approval. There is no need to resubmit the plan.
- () Address all comments as noted below and resubmit the plan for further review.

REVIEW COMMENTS:

1. Please ensure all certificates are signed before submission of originals.

Warning: All soils have limitations, ranging from slight to severe, for building homes, constructing roads and ponds, and various other uses. Please consult the *Soil Survey of Howard County* for determining soil types and their suitability for development, engineering and building.
