Maryland Bulk Data Delivery User Guide

Introduction

In March 2012, the Maryland Department of Transportation Maryland Motor Vehicle Administration (MDOT MVA) partnered with Tyler Maryland through a Master Contract with the Department of Information Technology to provide Bulk Driving and Vehicle access service. This document provides an overview on implementing and interfacing with this service. In order to utilize the service, the customer must be authorized within the scope of the Driver Privacy Protection Act (DPPA) and have a subscription to the Bulk Data Delivery service to access MDOT MVA records.

What's New?

The following revisions were made to the BULK user guide:

- Tyler Maryland brand updates

Bulk Data Delivery Service Overview

The Bulk Data Delivery service is a secure file transfer batch-based system which allows customers to receive larger volumes of MDOT MVA driver or vehicle record data.

Maintenance Windows

This service is unavailable to process requests during server downtimes. Current Tyler Maryland scheduled downtimes are:

- Second Saturday of every month from 11:00pm until 5:00am EST

New Titles, Registrations and Address Corrections and Registration Renewals:

Customers receiving the New Titles, Registrations and Address Corrections (VORS580) and Registration Renewals (VORS590) will receive the files per the following schedule:

- Sundays between 10:00am and 11:00am
- Monday, Tuesday, Wednesday, Thursday, Friday & Saturday between 2:00am and 3:00am

Upon subscription to the Bulk Data Delivery service, each customer is assigned a directory to which data can be transmitted and retrieved. The MDOT MVA will return the output files in in the customer's "out" directory.

Special Request Programs

Customers subscribing to Special Request Programs (VORS023 and VORS024) will place an input file to the FTP location indicating the records being requested. Each second Sunday of the month, between 3:30 and 4:30 PM, customers will receive their results file.

Upon subscription to the Bulk Data Delivery service, each customer is assigned a directory to which data can be transmitted and retrieved. Special Request Program customers will provide to Tyler Maryland, via the Service's "in" directory, a listing of the records they are requesting. The customer must have a DPPA-approved reason to request each record. Tyler Maryland will submit the request to the MDOT MVA mainframe. The MDOT MVA, upon receipt of an input file, will return the resulting output files in the "out" directory.

All files placed on the FTP server will cause a confirmation e-mail to be sent to the customer as soon as the file has been picked up by the Bulk File Delivery service.

The file server location for all Bulk Data files are located at the following URL:

<https://sftp.egov.maryland.gov>

Incoming files for all file types will generate a "received" e-mail confirmation. **The file format and file naming convention and file layout will be the same as what customers are currently getting from MDOT MVA.**

Program Guidelines

FTP Directory Structure

Each customer is assigned a directory to which data can be transmitted (where applicable) and retrieved. When the customer logs onto the server, the server will automatically route the user to the proper directory according to the User ID & Password used to login. Upon login to the file transfer server, the customer will be rooted into a directory named for their billing identification code.

Under this directory will be service directories for bulk services. Within the service directories will be "in" and "out" directories as well as archive directories to hold files from previous processing days. The "in" folder is used to transmit request files to the service and the "out" directory is used to receive response files.

Example:

Tyler Maryland will archive the input and output files prior to dropping the new files in the Out folder.

Charges and Billing

Each record returned by the MDOT MVA will bear a cost of \$0.06/record for non-Government entities and \$0.025 for Government agencies. There are no minimum fees.

Invoices are generated and mailed/e-mailed to customers at the beginning of each month for the previous month's transactions. Payment is due upon receipt of the monthly invoice. Interruption to service occurs if payment is not received by Tyler Maryland within 20 days of the date of the invoice. If payment is received following a termination, Tyler Maryland determines eligibility for reinstatement.

Bulk Data Access Program Support

To report a technical problem, error message, or billing inquiries, please call the Tyler Maryland Help Desk at (888) 9MD-EGOV and explain the nature of the problem. The support staff will request information from you and will work with you to resolve the issue.

Discontinuing Participation in the Bulk Vehicle Record Data Program

Customers who no longer wish to participate in the Bulk Data Access program must notify Tyler Maryland, in writing, of their intentions to discontinue participation. The contract may be discontinued by either party with a thirty (30) day notice in writing.

Secure FTP Connections

The server allows customers to download and upload files via a secure connection. Data being transferred is encrypted from point-to-point. Users are required to use an SSL connection via either their browser or secure FTP (sFTP) via a 128-bit SFTP client.

Customers have two (2) options for connecting to the Tyler Maryland SFTP server. Following are the choices available and the information needed to utilize each.

SFTP Connection

Customers may submit and retrieve files via a secure file transfer client. If using a secure file transfer client, access to the server is accomplished by accessing the following server name:

sftp.egov.maryland.gov

A connection will need to be made using valid user credentials. The client must be able to handle at least 128-bit encryption. Secure file transfers occur over TCP port 22.

HTTPS Connection

The HTTPS web client capability allows any user with access to a common web browser to easily connect to the server to upload and download files. Clients may connect to <https://sftp.egov.maryland.gov> to

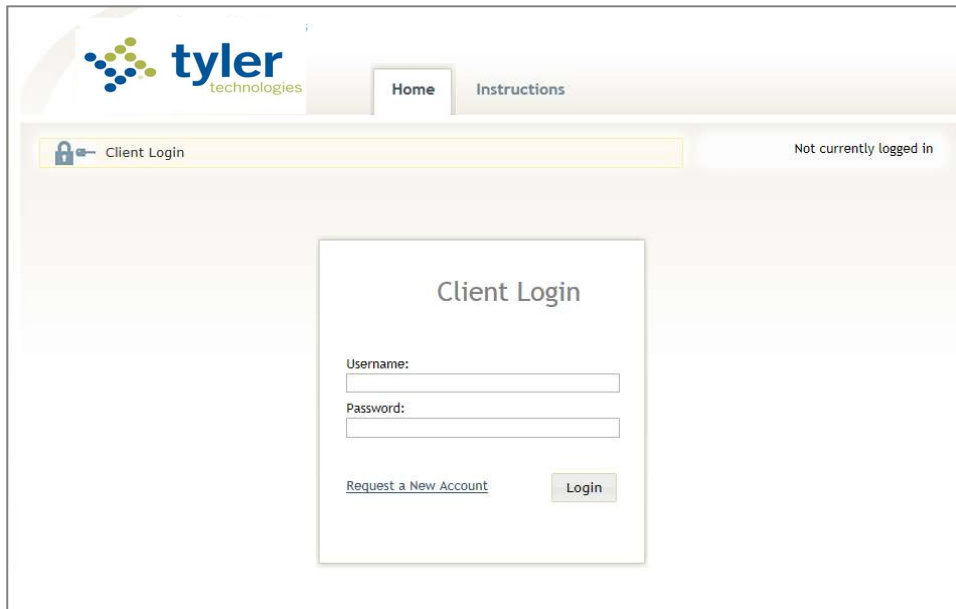

submit and retrieve files. Data transfers will be SSL encrypted and RFC-2228 compliant. HTTPS occurs over TCP port 443.

*Note: Customers are NOT required to purchase their own certificates. Certificates are sent from the server to the client.

Connecting to the Tyler Maryland Secure Server via HTTPS

Accessing Tyler Maryland's Secure FTP Server

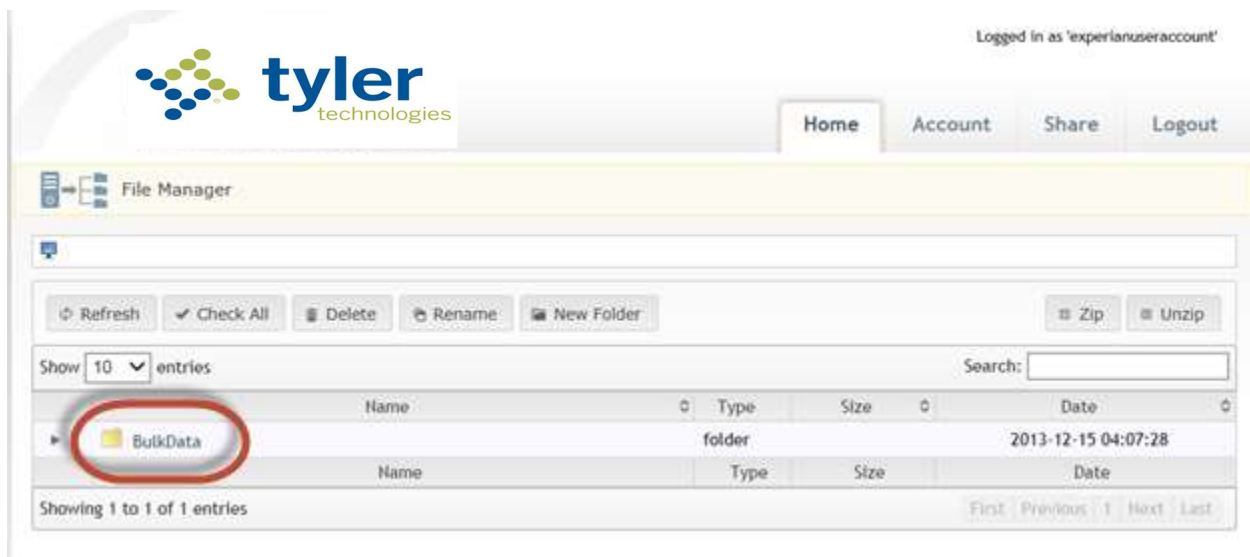

1. Start your Internet browser.
2. In the address field, type in <https://sftp.egov.maryland.gov/>.
3. Enter your Username and Password assigned by Tyler Maryland and click on the "Login" button.

The screenshot shows the Tyler Maryland Client Login interface. At the top left is the Tyler Technologies logo. To its right are two tabs: 'Home' and 'Instructions'. Below the logo is a 'Client Login' button with a lock icon. In the top right corner, it says 'Not currently logged in'. The main content area features a 'Client Login' form with fields for 'Username:' and 'Password:'. Below these fields are two links: 'Request a New Account' and a 'Login' button.

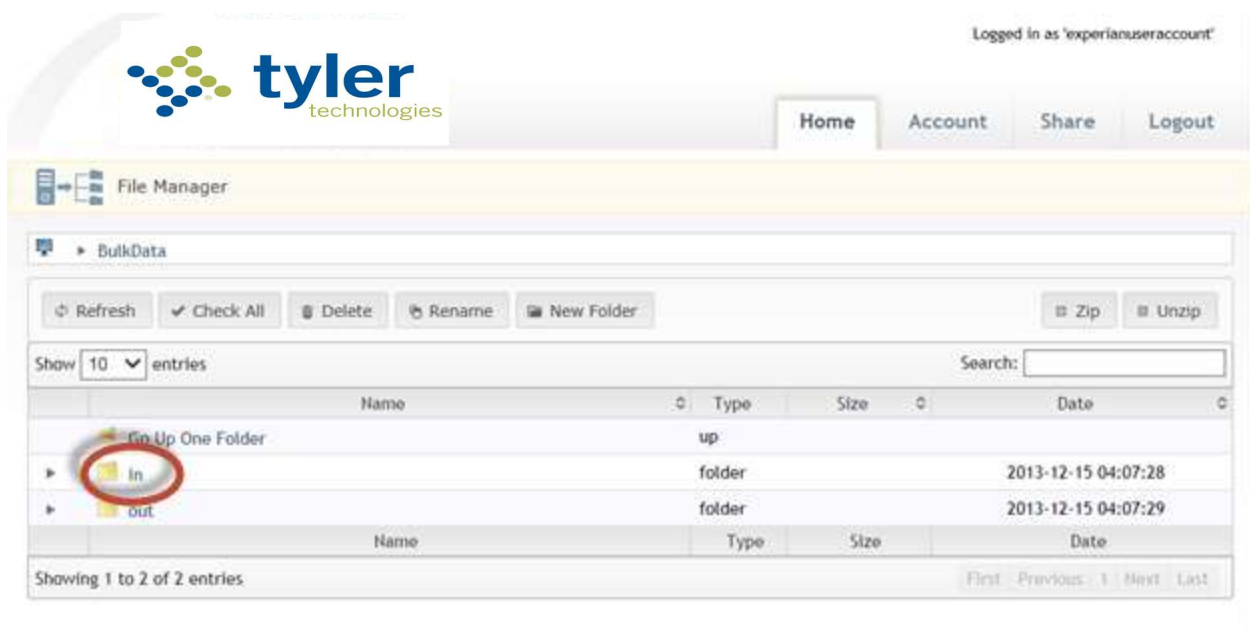

4. You are now connected to the Tyler Maryland Secure FTP server.
5. To close your session, click the "Logout" hyperlink at the top, right- hand portion of the screen.

Transferring a file to the Tyler Maryland FTP Server

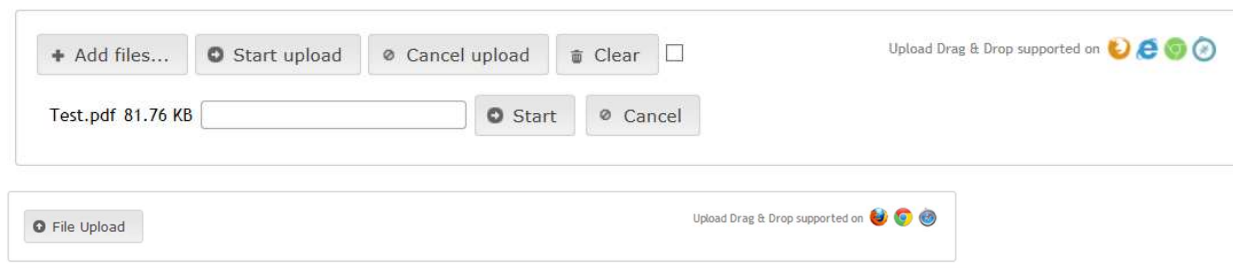

To transfer a file to Tyler Maryland's Secure FTP Server, click on the "BulkData" folder.

Next, click on the “in” folder. This links to your “in” FTP directory.

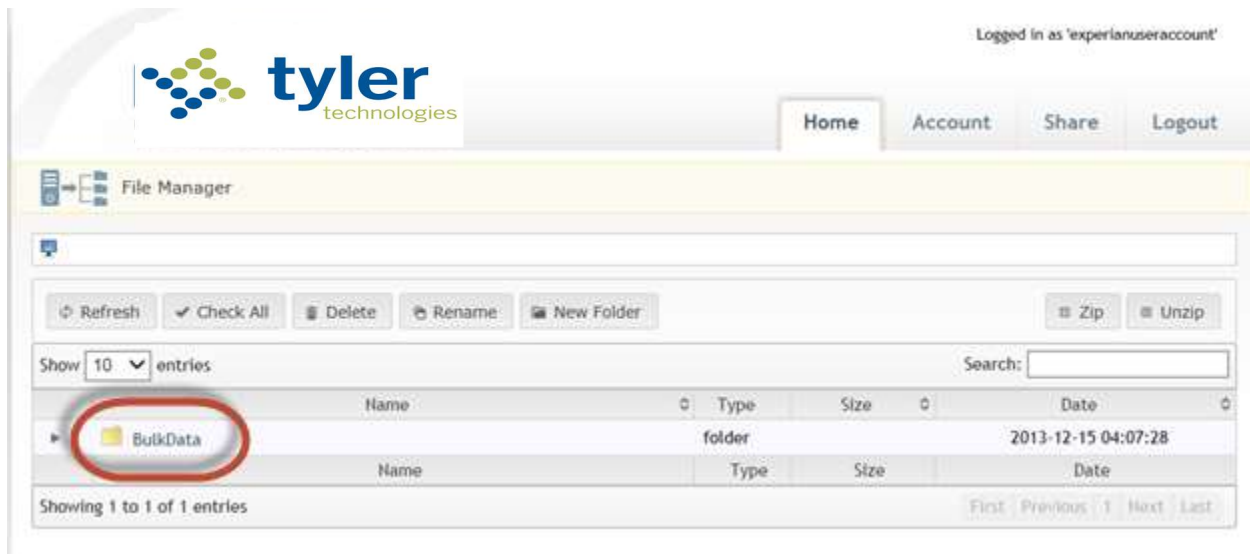

Click on the “Add files...” button located at the bottom side of your browser.

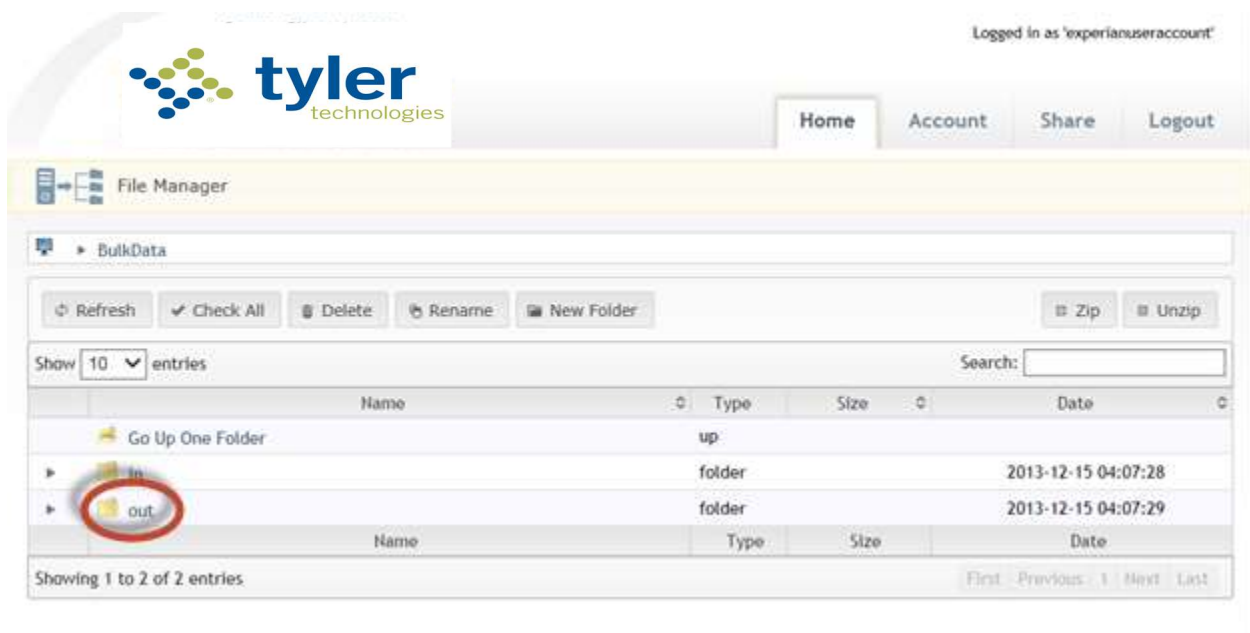

Navigate to the file you wish to upload into your “in” folder. Double-click the file the select the “Start upload” button to initiate the upload process.

Retrieving a file to the Tyler Maryland FTP Server

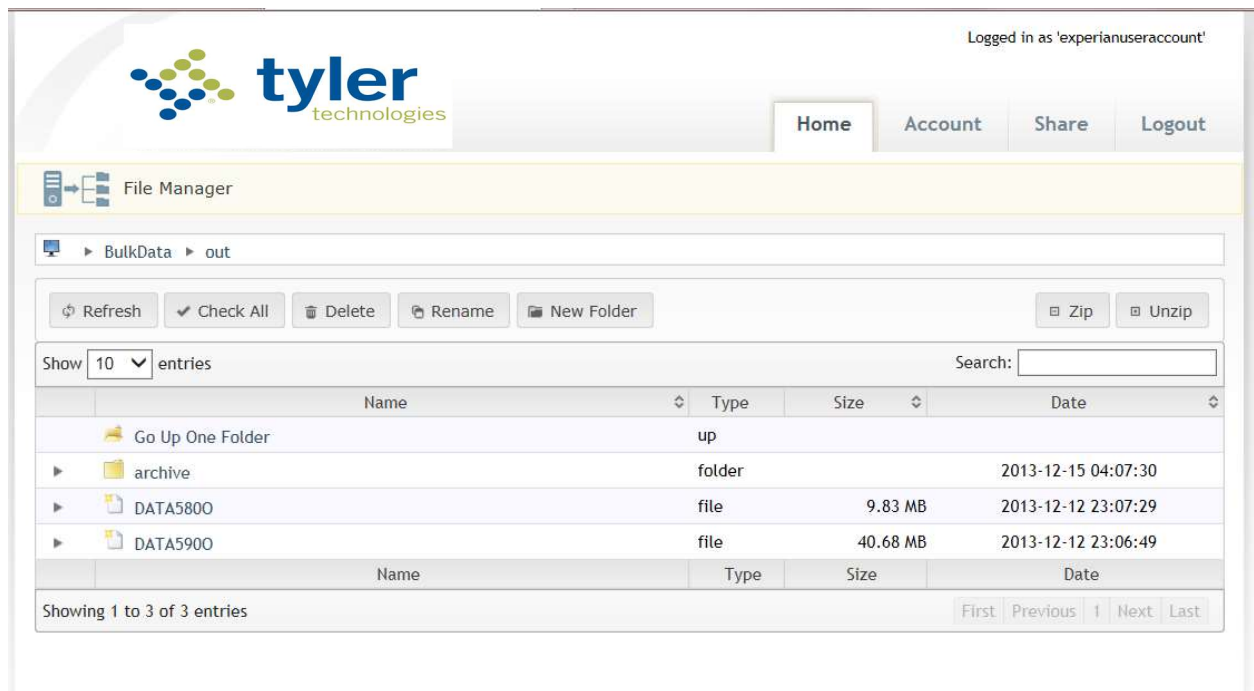

To retrieve a file from Tyler Maryland's Secure FTP Server, click on the "BulkData" folder.

Next, click on the "out" folder. This links to your "out" FTP directory.

The screen below displaying the returned file will appear. Click on the file name link to download the file. Then follow the on-screen instructions to open or save the file. (Please note that although you may right click on the file and choose the "Save As" option to download the file, the method specified here is the preferred one and will ensure the integrity of the file layout.)

*Note: Remember that the input files should follow the same file naming and file layout standards that are currently followed. MDOT MVA will reject the files that do not meet these standards.

BULK Code References

Vehicle Record Type Codes

MDOT MVA Vehicle Record Type Codes are described in the table below:

Vehicle Record Type Code	Description
1	Regular license plate
2	Dealer license plate
3	Cross-referenced license plate (License plate is cross referenced to another license plate number)
4	Returned license plate
5	N/A (Not applicable or used at this time)
9	No match

Vehicle Brand Codes

The BULK system translates the various brand fields in the database when vehicle titles or salvage certificates are generated. In some cases, there may be different interpretations, depending on whether a salvage certificate or a title certificate is generated, which is indicated in the tables below. The brand fields are input by hand and are not edited; therefore, the descriptions may vary. Information will be displayed "as is" if it does not match the predefined set of brand "codes" listed in the chart.

Odometer Code	Description
A	Actual mileage
B	Exceeds mechanical limits
C	Not actual mileage
D	Exempt

Brand Type Codes

Value	Title Document
BUYBCK	Buy Back
FIRE	Fire Damage
FLOOD	Flood Damage
GLDKIT	Glider Kit
HAIL	Hail Damage
JUNK	Junk
KIT	Kit
LDTSPD	Limited Speed
REBILT	Rebuilt Salvage
RECON	Reconstructed
REPLCA	Replica
SALVAG	Salvage
SLVABN	Salvage - Abandoned
SLVSTL	Salvage - Stolen
VINREP	Vin Replacement
XRENTL	Former Rental
XSALVG	Prior Salvage
XTAXI	Prior Taxi

Transaction Type Codes

Value	Value Description
VhcPltManage	Manage an active registration
SvrVhcRegRnw	Renew a vehicle's registration
VhcNewReg	A new registration added to an existing vehicle that has no current registration
SubSticker	Remake registration card with decal sticker
VhcRegInt	A non-manual transaction for new plates and plate transfers from interfaces
DuplicateReg	Remake existing vehicle registration
VhcTempRgExt	60 Day Temporary Registration Extension
VhcRegRnw	Renew a vehicle's registration
IssueIntTag	Issue interchangeable tags for a business
VhcTempReg	15 Day Temporary Registration
TtlRegCor	Correct Title and Registration
LienMaint	Release, Add or Change a Lien
SvrDupTtl	Issue Duplicate Title
DuplicateTtl	Issue Duplicate Title / SIF
SalvageTitle	Issue a salvage certificate or add a salvage brand to an owner-retained title
SvrTempReg60	Issue a Temporary Registration
VhcTempReg60	60 Day Temporary Registration
InTransitreg	In Transit Registration
SvrInTransit	In Transit Registration
TitleReg	Title and Register a New Vehicle
SvrSalvTitle	Issue a salvage certificate or add a salvage brand to an owner-retained title
ErtTtlReg	ERT Cutover Title and Registration
ErtStdRnw	ERT Cutover Renewal
SvrTitleReg	Title/Registration (Interface)
NonResPrm	NonResident Permit
MISSING	Missing Transaction
OOSDupTitle	Vehicle Returned to State
PrevOwnPlt	Missing Previous Plate
VEIPTempReg	Temporary VEIP Registration
SvrManageTOD	Manage Beneficiary (Interface)
ManageTOD	Manage Beneficiary Details
PrevOwnPlt	Missing Previous Plate
RplORVDecal	New or Replacement ORV Decal
SrvVhcNewReg	New Registration (Interface)
VEIPTempReg	Temporary VEIP Registration
VhcFix	Fix Vehicle Record
ERT.SUBSTC	Legacy Edit – Substitute Sticker
ERT.SUBTAG	Legacy Edit – Substitute Tag
ERT.TMPEXT	Legacy Edit – Temporary Tag Extension
ERT.TMPTAG	Legacy Edit – Temporary Tag
ERT.XFRTAG	Legacy Edit – Transfer Tag

Flag Type Codes
